  <h2>Solution Question 1 :</h2>
  <p id="1">i. Create an array [2, 4, 6, 8, 10, 12] and then display all those numbers that are less than 5 by using an appropriate method.</p>
  <h2>Solution Question 2 :</h2>
  <p id="2">ii. Create an array [1, 11, 111] and then subtract numbers from right to left by using a suitable method and display the output</p>
  <h2>Solution Question 3 :</h2>
  <p id="3">iii. Create an array ["Instagram", "Twitter", "Facebook", "Snapchat", "Instagram", "LinkedIn"] and then find the last index of "Instagram" from the given array and display that index.</p>
  <h2>Solution Question 4 :</h2>
  <input id="input" type="number" placeholder="enter number">
  <button onclick=submit()>submit</button>
  <p id="4">iv. Ask the user to enter a number from 0 to 9. If the user enters a number from the given range (from 0 to 9), then display that number. Otherwise, display a message that you (enter your name) entered a number out of range (for example "Hasnain Iqbal enter a number out of range").</p>

<script>
  //solution 1
  var q1 = [2, 4, 6, 8, 10, 12];

  document.getElementById("1").innerHTML = q1.filter(num=>num<5);
  //solution 2
  var q2 = [1, 11, 111];
  document.getElementById("2").innerHTML = q2.reduceRight((acc,num)=>acc-num);

  //solution 3
  var q3 = ["instagram","twitter","facebook","snapchat","instagram","linkedin"];
  document.getElementById("3").innerHTML = q3.lastIndexOf("instagram");

  //solution 4
  function submit(){
    var name = "saifullah";
    document.getElementById("4").innerHTML = "";
    var num=document.getElementById("input").value
  }

```

```
console.log(num)
if(num>=0 & num< 10){
  document.getElementById("4").innerHTML = num;
}
else{
  window.alert(name + " enter a number out of range ")
}
}
</script>
